

# Space Cadet Shopping Guide for

After this year of upheaval and craziness, we are so glad for this chance to connect with you! Step into our online booth, come hang out during our live sessions, and let's start sweater season... together.

I'm Stephanie, the head spacecadet at SpaceCadet yarn, where we create beautiful colourways by hand-mixing every dyebath from primaries. We specialise in gorgeous semi-solids that mix and match with coordinating variegateds, and we love to create amazing ooaks and small batches. Started as a one-woman operation in my basement, we're now we are five women strong, working in our dedicated dye studio in Pittsburgh PA.

And we're all so glad you're here!

## Our Show Special

*Late Sun*

Especially for VKLive, we've created this beautiful colourway, Late Sun. A beautiful combination of faded golds and greens over the softest greys, it's washy and layered and absolutely stunning!

Available for pre-order, Late Sun can be dyed on any of four of our most popular yarns: Celeste, Oriana, Lyra, and Vega. [Tap here to order!](#)

One of a Kind

# SMALL BATCHES, PAIRS, AND FADES

One of the best things about dyeing from primaries is letting our imaginations run wild with colour. And when we do, the result is these absolutely gorgeous small batches, pairs, and fades!

Each one is completely one of a kind and will never be repeated -- and it's a rare treat to see these in the shop! They are first come, first serve, and once they're gone, they are gone.

# Our Handy Tools!

"Where's my tape measure?!?"

...Has anyone seen my tape measure?"

...Um... do you maybe have a ruler?"

We all have the same problem! You have a million tape measures in your house but you can never find one when you need one, right?

But here's the thing: you always have your phone nearby! So why not have a measure right there on your phone? Stick our handy Phone Measure on the back of our phone, and you can quickly check your project or swatch up to 4"/10cm... without ever having to find that pesky tape measure again!

You know where all your gauge swatches are, don't you?

...they're not all stuffed in a drawer somewhere, are they?

Yep, that was me too!

I've always struggled with how to organise my swatches. I use my favourite yarns time and again, so I like to keep my swatches for reference on future projects but I've never found a good way to keep them together with their needle and gauge info. I tried notebooks, digital files, and I have a bunch of swatches stuffed in a drawer... nothing was really working.

Until, that is, I created these Gauge Swatch Cards! [Tap here to see](#)

## Bespeckle Hat Kits

Everything you need to make Hunter Hammersen's adorable hat

Hunter Hammersen has done it again! This time she's innovated colourwork to create this amazing hat pattern that takes our Capella yarn and turns it into a thing of speckled joy.

Packed with fun, each kit contains:

- one 100g skein of Capella in the main colour: 100% Superwash Merino; single-ply; Worsted; approximately 195 yards per 100g
- one 50g skein of Capella in the contrast colour
- a pom-pom tool to make creating your pom-poms super easy!
- a toggle set to make your pom-pom removable
- a download code for the Bespeckle pattern (a \$7.45 value!), with step-by-step photo tutorials on making the pom-poms and placing the speckles
- all packaged in a sweet reusable zipped pouch!
